Super Stars days are designated days and times that staff and participants will actively engage in special activities with outside vendors. Our staff and parents will be available to view special events at our Therapeutic Integration (TI) center in Columbia, Maryland.

These days are only offered May through August. All of the special activities and shows are free of charge to our participants and families. Because we opened our doors to Autism Waiver participants and their families in July of 2019, we host anniversary celebrations during the month of July for our families.
